List of all changes between DTR 19791 and ISO/IEC TR 19791:2009(E)

1. Headers and footers changed to assign copyright to ISO/IEC and reflect change of status from DTR to TR.
2. Add new figure 2 illustrating operational system lifecycle and renumber subsequent figures.
3. Three minor typing errors corrected in Section 7 – see comments SG 1, SG 2 and SG 4.
4. Change “non-evaluated” to “unevaluated” throughout. Rename family AOC_NCP to AOC_UCP to reflect change.
5. “Operational system evaluation” used throughout rather than “operational systems evaluation”.
6. Add note to 9.7 explaining that a System Security Target is different from a Site Security Target.
