Secretariat: DIN, Germany

DOC. TYPE: liaison statement

TITLE: WG3 response to Liaison statement from ITU T SG17 (SC27 N7435)

SOURCE: 38th SC 27/WG 3 meeting

DATE: 2009-05-06

PROJECT: -

STATUS: As per resolution 11 (contained in SC27 N7783) of the 38th SC 27/WG 3 meeting held in Beijing, China, 4th – 8th May 2009, this document was prepared by WG 3 as a contribution to SC 27's response to a liaison request from ITU T SG 17. It is circulated within SC 27 for information.

ACTION: FYI

DUE DATE:

DISTRIBUTION: P-, O-, and L- Members
W. Fumy, SC 27 Chairman, M. De Soete, SC 27 Vice Chair
E. Humphreys, K. Naemura, M. Ohlin, M.C. Kang, K. Rannenber, WG-Conveners

MEDIUM: Server

NO. OF PAGES: 1 + 1

ISO/IEC JTC 1/SC 27/WG 3 thanks ITU –T SG 17 for its liaison statement to SC 27 N7435 and is pleased to provide its answers as follows :

Do you agree that this work activity would be useful to organizations and/or DC/CETs planning to deploy telecommunications/ICT security systems ?

SC 27/WG 3 clearly believes that the work is unnecessary. SC 27/WG 3 reminds that there is already in SC 27 SD7 document (SC 27 N7447) a short description of all standards developed under SC 27's area of responsibility. There is in addition a risk that the proposed résumé will present incompleteness, misunderstanding or lack of clarity.

Does your organization have existing information that may be related to this work activity or that may be used to progress this work ?

SC 27/WG 3 advises that ISO/IEC TR 15443 contains information regarding many security assurance standards.

Does your organization have contact with DC/CETs that may further elaborate on their needs and detail the information they may find most useful to capture in the activity output ?

SC 27/WG 3 confirms that it has currently contacts with DC/CET. Some of the participating members of SC 27/WG 3 represent DC/CET National Bodies.

Does your organization have any suggestions to provide additional detail regarding the proposed summary sheet elements (Section 1 in the attachment and in the examples) or criteria to select standards (Section 2 in the attachment) ?

See answer to first question.

Would your organisation be willing to assist the ITU-T SG 17 in progressing this work ?

SC 27/WG 3 will assist ITU-T SG 17 within its domain of competences.
